

# Protect your local government pension

**Reform UK are threatening pensions.**

Reform UK are urging their council leaders to cut employer contributions to zero.

Decisions on pension contributions should be based on professional advice, not political interference.

**GMB**

SOUTHERN

# **A strong union can help protect your pay and your pension**

Reform UK Deputy Leader Richard Tice MP has urged councils under Reform control to cut employer contributions to staff pensions down to zero.

Encouraging employers to pay nothing into the Local Government Pension Scheme risks your security in retirement, which is the least you deserve after a lifetime of service to your communities.

GMB will always fight to defend members' pay and conditions, and resist any attempts to lower contribution rates below the certified actuarial contribution rate.

Being part of GMB is more important than ever. Make sure you are united and organised in your workplace so together we can challenge attacks on your well-earned pension, pay, terms, and conditions.
