Dear Micah

Re: NSL Westminster pay claim 2021/2022

Please see below pay claim, as requested by our members. You would be aware that I sent a survey round to all our members, including the supervisors, recently. We are aware that the Treasury has now issued notice of an expected hike in interest rates by the fourth quarter of 2021; their expectation is that of around 2.8%. We are also aware that the cost of living is to rise significantly, as more companies are now confirming rises in such things as energy and travel. In short, we are expecting the real cost of living to escalate to unprecedented levels. Our members are also aware the contract is extremely lucrative and, as such, should be reflected in their pay.

Claim

- Basic rate of pay to increase to £13 per hour
- Riders' allowance increased to £1 per hour
- Night shift or part of to be increased to £15 per night
- Saturday to be paid at 1.5x. Sunday to be paid at 2x.
- Direct deployed allowance to go to £10
- Home charging to go to £20 a month
- Supervisors' rates to be increased by the same percentage on the basic rate

I look forward to hearing from you.

Yours sincerely
